The handle of the filter can be swung forwards and downwards to drain the water from the filter housing, simple and elegant. Its filter lid can also be removed to make it easy to put a tray underneath to catch the escaping water.

### 針型過濾器 \*

# The Heat Pump Dryer Caring for both your clothes and the environment

## 熱泵技術冷凝式乾衣機

Thanks to Heat Pump Technology, which helps to maximise air circulation and the drying performance of your dryer, you'll save more energy, more money and the environment too!

### FEATURES | 優點設計

#### Power Saving

Professional laundries use low drying temperatures to minimise energy use. And it's thanks to professional heat-pump technology that the dryer uses low temperatures to gently dry your clothes. As a result, it is 50% more energy efficient than a traditional B class dryer.

#### 節省能源

專業洗衣房使用的低溫烘乾減少能源的消耗，有賴專業的熱泵技術。採用熱泵式烘乾技術，低溫就能達到烘乾的效果，不但不會損壞衣料，更比傳統的乾衣機能源效益高50%。

#### Gentlest drying for wool – assured by a Woolmark Gold Certificate

You know that a professional laundry will dry your most delicate woollens with the greatest care. And so will this tumble dryer – as guaranteed by its Woolmark Gold Certificate. The specially developed cycles dry all your woollen items with the gentlest treatment possible

#### 國際羊毛品質合格標記

專業洗衣房一直對烘乾最纖細的毛織品都倍加小心。全新乾衣機已獲國際羊毛品質合格標記的黃金證書。專門開發的烘乾週期，特別呵護您的純毛衣物。

### FEATURES | 優點設計

#### Dry small loads as efficiently as big loads

So as not to waste energy, we often save up our laundry until we have a large load. With this tumble dryer, you can use time and energy with exacting efficiency. That's because it cleverly detects the size of any load up to 9kg, and then automatically tailors the cycle's length and energy consumption to match it.

#### 智能乾衣時間調節

有了這個滾筒式乾衣機，你可以隨時隨地烘乾您的純毛衣物，不用等待衣量滿載。這是因為它懂得檢測任何負載的衣物重量至9公斤，然後自動調整相應之烘乾程式及能源的消耗。

#### Quickly activate your favourite settings for each load

With MyFavourites, you can use your favourite settings for each and every load – and you can activate them instantly. Just save your preferred combinations of programs and settings. The next time you use the tumble dryer, you can activate them straightaway just by pressing one button.

#### 您最喜愛烘乾衣量的設置

備有《您最喜愛烘乾衣量的設置》，您可以為每個烘衣量使用設置您最喜愛的程式。只要保存程序和設置您的首選組合，當您下一次使用時，只須按下一個按鈕，便立即啟動。

#### Tumble dry efficiently and in silence

With this tumble dryer, you can dry your clothes inside as quietly as if they were hanging on a line. Thanks to Electrolux's professional inverter motor, it delivers great results using minimum energy and in virtual silence.

#### 寧靜與高烘乾效率

伊萊克斯的專業變頻摩打，提供了很大的成績，不單消耗最小的能量，更寧靜可靠。

#### LED Light

This tumble dryer has an internal LED light that illuminates every inch of the drum interior, so you can easily make sure that you've left nothing inside - not even a lonely sock!

#### LED 滾筒照明燈

滾筒內備有LED照明燈，讓你可以很容易地看到滾筒裡面什麼衣物都沒有遺留，甚至是一隻襪子！

## The Condenser Dryer No more unsightly clothes lines

Thanks to the new Electrolux Condenser Dryer

### FEATURES | 優點設計

#### Auto Reversing

Tumble action alternates clockwise to anti-clockwise. Reduces clothes tangling and bunching together, so they dry more evenly and quickly

**Large Reversible Door** -- Everyone's laundry is different. That's why we designed a large reversible door to accommodate those tight spaces and side-by-side installations. You can easily change

#### 迴旋式乾衣

迴旋式設計為順、逆時針交替，可減少衣物纏結和側聚一邊，令烘乾效果更均勻及快速。

**轉換左石門** - 因應各人不同的洗衣模式，可轉換開門方向的设计，與洗衣機並列時做成對門效果。改變，就是這麼容易。

#### Woolmark Apparel Care

Taking care of your precious woollen garments is now even easier with our advanced Woolmark Certified Woollen cycle. Created especially for machine washable woollen garments, you can now safely wash your woollens without any shrinkage, stretching or felting.

#### 羊毛衣物護理

為呵護您寶貴的羊毛衣物，我們備有國際羊毛品質合格標記的烘乾模式，讓您的可機洗羊毛衣物於烘乾時不會出現任何收縮、拉伸及粘結的情況。

#### Advanced Sensor Dry

Your clothes will be dried perfectly with Advanced Sensor Dry. Humidity sensors are activated three times throughout each cycle to eliminate over drying, which can be harmful to fabrics. So, you enjoy optimal drying accuracy, along with exceptional care and performance.

#### 感應乾衣

智能感應乾衣令衣物的烘乾效果達至完美。於烘乾過程中感應濕度三次，能避免過度烘乾，更呵護您的衣物。

#### No fuss programs

Simply choose your fabric and the level of dryness you require and press Start; it's that easy

#### 「非煩」操作

只需因應衣物的不同質地，選擇合適您的烘乾模式，就能做出滿意的乾衣效果！
