## Key features for EHH6332FOK - Cooking

[▲ Back to top](#)

### Enjoy the space and the freedom to cook what you want

Use large pots and pans as a professional chef. The extra-cooking zone for large containers this large plate measures provides freedom to easily prepare the dishes in large vessels. [Read more](#)

### Always perfectly clean thanks to induction technology

With the professional induction technology on this board, the surface never gets hot. Stains do not stick and can be cleaned off easily. [Read more](#)

### The integrated control panel on the counter offers a very direct access to the controls of cooking.

The controls of the cooking plate has been designed to be intuitively accessible [Read more](#)

### Save time in reaching high temperatures immediately

Run the kitchen faster with the increased power function of this board. It provides the additional energy for the food to reach the highest temperatures instantly. [Read more](#)

### Take a break from cooking and resume it with one touch

It is possible that while we're cooking, we are forced to pause when the phone rings or when we need to consult a recipe. Thanks to the Stop& Go function, you can select the one-touch pause and resume it later where the hob will recover the same cooking temperature settings. [Read more](#)

### Cooking zones which are heated only when they detect a vessel on the surface

The intelligent technology induction cooking zones of this plate is heated only when a container is placed above it. As soon as the container is removed, the cooking zones turn off automatically. [Read more](#)

## This product comes with

Independent hob with illuminated touch control

Pot detection

Automatic fast heating up

Made in Germany

Easy to clean ceramic surface

Timer with signal and automatic switch-off intuitive control

Precise heat setting with 7 power levels

Stop & Go function so you can pause cooking at any time
