Key features for EHL7640FOK - Cooking

[▲ Back to top](#)

The hob allows your creativity to run wild.

The Infinite-induction cooktop offers you maximum freedom. As long as the cross markings are covered, you can place pots and pans of various sizes and shapes at any point. [Read more](#)

Simply wipe and clean - thanks to induction technology

Thanks to the professional induction cooktop technology, its surface remains almost cold. Splashes therefore have no chance to brand and can be easily wiped away [Read more](#)

Unhindered intuitive control - finger pressure or by sliding your finger

The direct access controls of this hob provides a completely intuitive way to adjust the heat setting- simply touch and drag them directly to the correct settings. [Read more](#)

A cooktop with a hidden talent for cooking in a big way

The bridge of this cooktop does not take up much space, but offers plenty of options when cooking. It may be attached to two zones of a large zone. [Read more](#)

Direct access to all buttons - thanks to the built-in hob operating system

The controls of this cooktop is designed so that they are always within reach. Just touch and make the desired settings! [Read more](#)

Save time by rapid heating to high temperatures

Save yourself the waiting time during cooking with the power level of this cooktop. You can then engage the extra power to achieve the highest temperatures in a short period of time. [Read more](#)

This product comes with

Made in Germany

EcoTimer- switches the hob off and uses its residual heat for the remaining cooking process

Countup Timer to keep track of how long your dish has been cooking or set the timer to alert you after a certain duration

Clever Heat - indicates three levels of residual heat

Stop & Go function so you can pause cooking at any time

Precise heat setting with 14 power levels

Direct access rotary slider control
