## Key features for ESI6501LOX - Dishwashing

[▲ Back to top](#)

### A truly automatic way of using the best settings for each load

Whatever the size or state of your load, this dishwasher can work out the perfect water and energy levels. Simply select AutoFlex, and let the dishwasher do the rest.

### Wash dishes in between courses – in 30 minutes

When you've got a load of just-used plates and pans – such as in between courses at a dinner party – you can use this dishwasher's 30-minute quick program.

### Press and go – activate your favourite program at one touch

Thanks to the MyFavourite function, you can quickly activate your favourite program and settings with one touch. Just press and go!

### Flexibility over when the cycle should start

Thanks to the flexible Delay Start function, you can change the start of the cycle so that it better suits your needs.

### For peace of mind, "off" really does mean "off"

The AutoOff function makes sure the dishwasher uses absolutely no energy between cycles – the next step in energy efficiency for great peace of mind.

### This product comes with

Upper basket with FlexiLift

SENSORCONTROL dishwasher

Auto Off function

Water sensor detects the level of dirt and adjusts water consumption

Thermo Efficient System

Glass protection program
