Key features for EDC2086PDW - Laundry

[▲ Back to top](#)

Smart Sensor

Detects moisture level in the laundry and stops the drying once the laundry is dried to prevent over-drying and to save energy.

Reverse Tumbling Technology

Creates a 2-way rotating action that helps reduce tangling and bunching up of clothes so they dry more evenly.

Woolmark Certified Wool Programme: Silver

Advanced woolmark certified wool cycle that dries your woollen garments with care.

Refresh Programme

Keeps your clothes smelling fresh even though they have been kept in the cupboard over a long period of time. With this special programme, it gets rid of that musty smell.

Crease-Free

Automatically rotates the drum periodically to minimise wrinkles on your dried clothes if they remain unloaded.

Delicate Drying

For delicate material, the dryer will provide maximum care by drying your clothes at a lower temperature that is well suited for it.
