Key features for EWP1064TDW - Washing Machine

[▲ Back to top](#)

Time Manager®

The new Time Manager function puts you in control of your own washing time. The washing time can now be reduced to suit your needs, without decreasing your satisfaction. Adjust your washing time according to your soil level of your laundry and save time and water.

Delay Starts

The washing time can be delayed from 30 minutes up to 20 hours. For instance, you can load the laundry into the machine in the morning before work and choose when you want it to be ready, perhaps in the evening when you return home.

LED Display

Displays remaining time and a timer setting

This product comes with

Time Display

Delay Start

HK energy label Class 1

Flap for powder or liquid detergent
