Simply Exquisite

酒櫃系列 Wine Cooler Series

存留珍貴，為佳釀延展醇和之味

BRING WINES TO LIFE
WITH IDEAL STORAGE CONDITIONS

恆溫模式 Constant Temperature

特設恆溫模式，溫度受控於攝氏5-18℃之間，確保你心愛的佳釀酒質不變。

Precise temperature control allows you to set your wine cooler at a consistent temperature between 5-18℃ for the type of wine you prefer.

濕度調節 Optimal Humidity

櫃內濕度保持於65%以上，以免濕度太低令酒塞變乾，又或太濕令酒質受潮發霉。

Humidity is maintained at the optimal level of above 65%. This is crucial as low humidity dries the cork while high humidity causes mold and destroys labels.

阻隔紫外線高達75% Protection against 75% UV

陽光中的紫外線會侵害酒質，惠而浦酒櫃特別採用防紫外線玻璃，保存酒質芳香醇和；部份惠而浦酒櫃更備有Low-E玻璃，於玻璃外特別塗上一層物料，阻隔紅外線及紫外線高達 75%，減低玻璃冷凝的機會。

UV lights destroy the tannins in wine. Thus, all Whirlpool wine coolers are equipped with anti-UV glass to preserve the aroma, flavour and texture of wine. Selected models have Low Thermal Emissivity Glass, a special coating designed to block the heat generated from IR and UV lights, providing protection against 75% UV. Thus, the risk of condensation on the glass is further reduced.

防震保護 Vibration Protection

若佳釀存放不妥，日常的震動或會影響酒質，出現沉澱物甚至加速老化，為免浪費千金難買的佳釀，惠而浦酒櫃加設防震保護，令你心愛的美酒安穩存放，保持優質。

Vibration can agitate wine, disturbing the sediment and speeding up the aging process. Whirlpool's wine coolers include special anti-vibration features to protect your wines and let them rest.

品味昇華，讓味蕾迷醉馥郁醇厚中
A SIMPLY SENSIBLE TREAT
FOR YOUR TASTEBUDS

獨有平板門設計 Unique Flush Door Design

特選惠而浦酒櫃更備有平板門設計，流線外型時尚考究，更節省空間，實用之餘饒富品味。

Whirlpool range of flush-fitting wine coolers is sleek, stylish and space saving. They integrate easily into surrounding cabinets, proving a true built-in solution.

獨有Low-E玻璃 Unique Low Thermal Emissivity Glass

酒樽都以有色玻璃防止光線與紫外光侵害酒質，部份惠而浦酒櫃採用了防紫外光的Low-E玻璃，給您的美酒多一層保障。Low-E玻璃採用高度節能物料，廣泛用於現代建築。Low-E玻璃有效阻隔陽光中的紫外線及紅外線引起的熱輻射，可阻隔高達75%的紫外線，減低玻璃冷凝的機會。

Wine bottles are colored to protect their contents against the damaging effects of light and UV rays. Now you can enjoy an extra layer of security, with the low-emissivity glass installed on selected Whirlpool wine coolers. Low-emissivity glass is a type of highly energy-efficient glass largely used in modern architecture. It has a special coating designed to block the heat generated from IR and UV sunlight, providing protection against 75% UV. Thus the risk of condensation on the glass is reduced.

雙溫區 Dual Temperature Zone

不同美酒的存放溫度也有異，所以惠而浦備有一個或兩個貯酒區的酒櫃選擇（兩個貯酒區只適用於ARC1800型號），隨你調校各區溫度，配合不同佳釀存放要求，令美酒保持最佳狀況。兩個貯酒區均可達致溫度5-18℃。

Different wine has different serving temperature. Thus, Whirlpool's range of wine coolers offer the choice of single or dual temperature zone (for ARC1800 only) to store different types of wine simultaneously at their optimal temperature. Both zones are capable of reaching the 5-18℃ temperature range.

新款LED顯示燈 Stylish LED Lighting

內設LED顯示燈，耗電量低，無紫外光發熱功能，安全可靠，無損你的佳釀珍藏，依舊保持品質純美無瑕。

Low-energy LED lighting offers safe and cool elegant illumination of your wine collection without damaging the flavour of the wine as it is ultraviolet free and has no heat output.

尺寸齊備 Adjustable Capacity

惠而浦酒櫃備有不同型號及尺吋，由存放7瓶至154瓶的容量任君選擇。

Wine coolers are available in sizes to fit your available space, ranging from compact 7 bottle models to expansive 154 bottle models.

壓縮冷藏 Powerful Compressor Cooling

惠而浦酒櫃採用壓縮冷藏系統，節省電力，溫度調節更加方便，相比低震動冷卻模式，溫度選擇更多更靈活，令佳釀輕易保存在最適合的溫度及環境中，香醇不減。

Whirlpool's wine coolers have adopted compressor cooling system, which is way more energy efficient, allows a larger temperature range and has better control of temperature than thermoelectric cooling. This not only ensures the long-term storage of your wines at optimum temperatures, it extends the life of your wine cooler.

安全上鎖功能 Safety Lock

為確保你的珍貴佳釀存放安全，惠而浦酒櫃特設安全防盜功能，設計精巧，安心妥貼。

You can now rest assured that your valuable wine collection will be safely kept with the option of a safety lock.
