InfiSpace TM ultra fan plus oven with pyrolytic cleaning

Product Benefits

3.68 kW total connected load, most powerful baking power on the market.

The powerful heating element allows the oven to heat up in a very short time and guarantee great cooking results.

Pyrolytic Self-Clean

With the pyrolytic self-clean function, you can reach professional levels of cleanliness in one touch. It turns residues into ash that can be wiped away with a damp cloth and even lets you know when it needs cleaning.

UltraFanPlus

To give more consistency to your cooking, hot air is circulated evenly around food. This feature is superb for preparing delicate dishes like souffles. Its wide range of temperatures also gives you better result, whether you're baking bread or browning creme brulees.

Food probe

Allows you to measure whether the joint is ready without even opening the oven door. It takes the guesswork out of meat cooking and is ideal for Beef Wellington.

InfiSpace 74L

Capacity increased by 25% and tray is 20% bigger than standard tray. Giving you the flexibility to cook more dishes at the same time.

Perfect Alignment

Using modern, distinctive and premium design we deliver ultimate functionality and elegant simplicity. Always using pure materials to achieve sophisticated textures and pure architectural lines.
